EC 001		03.01		Te	There is a difference between what is specified as instant coffee or soluble coffee in the ISO 3509 Coffee vocabulary and the term pure soluble coffee.	The definitions should be harmonized to avoid confusion. The word “extraction” should be replaced by “physical methods”	
EC 002		03.02		Te	The definition is not clear because it could be interpreted as a mix of different types of coffees instead of a mixture of pure coffee with materials other than coffee beans.	The definition should be harmonized with the change propose for 3.1 and 3.3 where raw materials other than coffee beans are also included.
