Tom Campbell-White | DS Smith Recycling

Recycling is at the
heart of everything
we do

01

Who we are

More than just a recycling company

We are part of the DS Smith Group. Together we are 'Redefining Packaging for a Changing World'.

A FTSE 100 company

32,000 employees across 250 sites in 37 countries

We are helping our customers with the sustainable packaging solutions our society needs

From design to production, supply to recycling, we offer our customers a joined-up solution

We have a circular role to play

- Everyone talks about waste as resource, but at DS Smith Recycling it really is
- We provide our paper and packaging divisions with the quality raw materials they need for their business
- Increasingly we are looking at how new materials form part of this loop, such as coffee cups

Redefining Packaging for a Changing World

We are living in extraordinary times. The digital boom is revolutionising virtually everything we do – and expect.

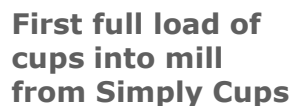

- We want to shop on demand and our purchases delivered now. But we also want to reduce our impact on the environment
- Sustainability is going to take new thinking and leadership
- Our vision for the packaging industry can play a powerful role in meeting some of the world's complex sustainability challenges
- We are already using our experience, innovation and ambition to develop the bespoke strategies and packaging solutions our customers – and our planet – needs
